

ROTORUA DISTRICT PERMANENT ALCOHOL BAN AREAS 2023

STATEMENT OF PROPOSAL TE TAUKĪ MAROHITANGA

DRAFT

Te tāhuhu

Background

In February 2021, Council adopted a proposal for Temporary Alcohol Ban areas under Clause 6 of the Rotorua District Alcohol Ban Bylaw 2018 (“the Bylaw”). This put a Temporary Alcohol Ban on some public spaces known by Council and Police to have high crime rates linked to Alcohol. The Bylaw enforced the Temporary Alcohol Ban areas from 27 February 2021 – 27 February 2022. These were then reinstated from 27 February 2022, and are due to lapse on 27 February 2023.

The temporary bans were intended to provide a trial period in which Council could quantify the success of implementing such measures. The trial period has been deemed successful and Council would now like to make these temporary zones permanent by amending the Schedules to the Bylaw that list and describe the Permanent Alcohol Ban Areas.

The Bylaw prohibits the consumption and restricts the possession and transportation of alcohol in specific public places within the Rotorua District (called Alcohol Ban Areas).

Alcohol Ban Areas may be permanent or temporary, and in either case may apply to certain hours or days. The additional Alcohol Ban Areas proposed would be permanent 24 hours a day, seven days a week. No changes are proposed to the existing Permanent Alcohol Ban Areas.

Within Alcohol Ban Areas, the consumption of alcohol is not permitted in specified public places such as parks, footpaths, lakesides, beaches or roads, but is permitted on private land such as licensed premises or private residences.

The Bylaw does not apply to matters relating to licensed premises under the Sale and Supply of Alcohol Act 2012.

A breach of a Bylaw is an offence carrying an infringement fee of \$250.

Information on proposed Permanent Alcohol Ban Areas

Prior to the temporary bans being in place, both NZ Police and Council repeatedly received reports of crime and disorder, relating to the consumption of alcohol, in the Rotorua Community Youth Centre Reserve, Marist St Michael’s Sports Park Reserve, Shambles Theatre Reserve and Lots 2, 3, 4, 5 DPS 65170 that sit adjacent to these reserves.

Crime and disorder in these areas have occurred over a number of years and was the driver for the temporary bans in 2021. Alcohol consumption in public areas creates problems, which occur day and night. Urinating, defecating, littering (broken bottles, aluminium cans, used hypodermic needles, general rubbish), disorderly behaviour

(fighting, intimidation), damage to buildings and sleeping overnight were some of the behaviours occurring in these areas and were associated with the consumption of alcohol.

Following the decision of Council in February 2021 to make these Temporary Alcohol Ban areas, the Police have had the power of 'search and seizure' as set out in s169 of the Local Government Act 2002 (LGA) as well as the ability to issue an infringement notice for breaches. The power given to the Police under S169 of the LGA creates the efficacy of the Alcohol Ban Area.

While other tools had been utilised to deal with this crime and disorder, prior to February 2021, these were not effective or timely for reducing the offending behaviours. The Rotorua District Alcohol Ban Bylaw 2018 authorises Temporary Alcohol Ban Areas by Council resolution. The temporary bans have been successful since their introduction in enabling more effective management of the alcohol related problems described above. Council believes it is appropriate to now make these Permanent Alcohol Ban Areas.

Alcohol related crime and disorder – prior to Temporary Alcohol Ban

Alcohol-related crime and disorder has been occurring across three adjacent Council Reserves and on the Lots owned by Council for a number of years. This led to the implementation of the Temporary Alcohol Ban in February 2021.

Experience of tenants in the area prior to Temporary Alcohol Ban:

Rotorua Community Youth Centre Reserve

Rotorua Community Youth Centre first contacted Council regarding alcohol related behaviours occurring on the reserve surrounding the Centre in March 2020. Behaviours included drinking on site, defecation, urination, intimidation and antisocial behaviour, fighting, and littering (including broken bottles and torn aluminium cans). The regularity of this behaviour, as well as having adults under the influence of alcohol, in the vicinity of young people, is a major health and safety risk.

Marist St Michael's Sports Park Reserve

Marist St Michael's Rugby and Sports Club have repeatedly raised concerns about adults hanging out and drinking in their reserve, defecation, damage to the buildings, theft, intimidating and antisocial behaviour and significant littering (cans, bottles, hypodermic needles). Children (as young as four years old) and young people are an integral part of the Marist St Michael's Club and have been exposed to these health and

safety risks.

Shambles Theatre Reserve

Rotorua Shambles Theatre lodged ongoing reports of adults drinking, sleeping and lighting fires on the decks of the buildings and in the reserve, intimidating and antisocial behaviour, defecation, and littering. There were safety concerns for Theatre staff and children attending drama classes during the day.

Council owned land

Council owns Lots 2 DPS 65170, Lot 3 DPS 65170, Lot 4 DPS 65170 and Lot 5 DPS 65170. Council's Property Team was dealing with issues of defecation, urination and vandalism of these Lots. These areas were recommended to be included in the temporary ban to avoid the issues shifting from the reserves to the Lots once the bans were implemented, and to protect the tenants. Currently Te Whānau Tokotokorangi Trust are the tenants of the building at 14 Te Ngae Road and provide services for people with intellectual and physical disabilities, including vulnerable youth and young adults.

Rotorua Police

Police data tends to under-represent the number of incidents occurring. Not all alcohol related offending is initially reported as such but is rather coded, for example, as disorder, minor thefts, fighting, or suspicious behaviour. Not all of this behaviour is reported to Police, but rather, to Council.

The Rotorua Policing Team did confirm, prior to the temporary bans, that they were called to the reserves in question at least four to five times per week in response to disorder, antisocial behaviour and violence offences, all usually alcohol related. The Police note that these three reserves have been used by homeless people as a gathering point and often dwellings have been set up in the area. Signs of alcohol consumption, defecation, and littering are always present. The Police have highlighted the inconsistency between the alcohol related crime and disorder, and the activities of the reserve users involving children and young people.

Tools already utilised to deal with the alcohol-related crime and disorder

The table below identifies the tools previously utilised by Council and Police to manage the alcohol-related crime and disorder occurring in the three reserves and Council Lots. None of these tools provide a mechanism for dealing with persistent alcohol-related

crime and disorder over multiple reserves in an effective and timely manner.

Tool	Effectiveness
Increased Safe City Guardian patrols	Provide a nuisance value for offenders; however, Safe City Guardians are unable to move people on. Police resourcing is required.
Locating the mobile CCTV camera on site	Has had no definitive effect. Those under the influence of alcohol are not typically concerned about camera presence.
Police moving on those displaying antisocial behaviours	Offenders are still able to return to the site to continue with these behaviours, when consuming alcohol on the reserves is allowed.
Use of trespass notices	Can only be served to people on individual properties not allowing for a blanket and timely response.

Proposed additions to the Permanent Alcohol Ban Areas in the Bylaw

Council is proposing that the declaration of Temporary Alcohol Ban areas passed on 11 November 2021 be revoked, and that pursuant to Clause 5(2) of the Bylaw, Council amends the Schedules of Permanent Alcohol Ban Areas to include the Rotorua Community Youth Centre Reserve, Marist St Michaels Sports Park Reserve, Shambles Theatre Reserve and Lots 2, 3, 4, 5 DPS 65170 that sit adjacent to these reserves.

Additional areas to be covered by a Permanent Alcohol Ban

The location and scope of each of the Reserves and Council Lots which are to become Permanent Alcohol Ban area is defined in Schedule 6 of the amended Bylaw.

Need and support for Permanent Alcohol Ban Areas

Alternative tools have not been effective in dealing with the high level of alcohol related crime or disorder in these areas of concern.

The Rotorua Community Centre, Marist St Michael's Rugby and Sports Club, Rotorua Shambles Theatre, Te Whānau Tokotokorangi Trust, Council Officers and Rotorua Police have expressed strong support for a ban. All of these groups say that the current Temporary Alcohol Ban Areas have curbed the previous levels of crime and disorder and given Police the ability to prevent other offences from occurring.

Council Officers and Rotorua Police agree Permanent Alcohol Ban Areas are appropriate and proportionate given the alcohol-related crime and disorder previously occurring on the Reserves. A Permanent Alcohol Ban is considered to be a justified and reasonable limitation on people's rights and freedoms to reduce and avoid crime and disorder associated with the consumption and possession of alcohol in these locations.

Introduction of Alcohol Bans

In considering a resolution to create Permanent Alcohol Ban Areas, Council must comply with the general decision-making requirements of the Local Government Act 2002 as well as meeting the evidential requirements of the Local Government Act and Council's Bylaws. The information supplied within this proposal meets those requirements.

Before a Ban comes into effect the Council must give public notice of the Ban not less than 14 days in advance.

Cost of proposal

Costs will be incurred to erect and maintain signage on each of the three reserves and on the Council Lots, notifying users of the Ban 14 days before the Ban takes effect.

Benefits

The Bylaw aligns with Rotorua's Vision 2030 (Outstanding Places to Play, Vibrant City Heart), as well as the Homes and Thriving Community Strategic Framework (Thriving Communities, Community Safety Planning). It is the purpose of the Rotorua District Alcohol Ban Bylaw 2018 to reduce alcohol-related harm, damage, disorder and crime and to improve community safety by putting alcohol restrictions in some public places.

The addition of the new Permanent Alcohol Ban Areas is consistent with these provisions and the purpose of the Bylaw.

The alcohol-related crime and disorder occurring on the three reserves and on the Council Lots was on the increase before the temporary bans were put in place and had reached a point where there was risk to the health and safety of users. Of particular concern is the risk to children (as young as four-years-old) and young people who use the tenants' facilities. Tenants and users were dealing with the adverse effects of crime and disorder on a daily basis. Both Council officers and Rotorua Police are aware of the health and safety risks. In making the temporary bans permanent the Council aims to minimise these risks to tamariki.

Proposed amendments

The proposed amendments include the addition of schedule 6 into the Alcohol Ban Bylaw 2018 – Permanent Ban Areas which is the inclusion of the temporary ban areas into a permanent area.
