

**Upcoming Works: Tarawera Road**

**Dates:** 4 June – 12 June, weather permitting

**Project:** Installation of a sewer pressure main

**Location:** From the Tarawera/Spencer Rd intersection down towards The Landing

**Impact:**

- 24/7 partial road closure of the downhill lane.
- One lane will remain open and will be managed by traffic lights.

Additionally, pump station works will result in changes to the layout of the Tarawera Transfer Station. These changes are expected to last for approximately four months. The transfer station will remain open to the public during this time with traffic flow arrangements changing as various phases of work take place.
