WACT is part of the collective, Te Hau Ki Te Kāinga, a community led, Kaupapa Māori Principles based response to developing “Self-sufficient, interdependent and vibrant whānau” by “Growing and nurturing future whānau leaders”. Whānau are placed into CEH using the methodology outlined in the Te Hau Ki Te Kāinga Strategic Plan (attached at Appendix 7).

Whānau are referred to CEH after being triaged and referred through Te Pokapū, a Rotorua Housing Hub where whānau are assessed and considered for emergency housing using the Ngā Pou e Rima cultural assessment model (see Appendix 8). The Ngā Pou e Rima framework designed around five pou:

- Te Pou Whānau – Family
- Te Pou Hinengaro – Emotional Wellbeing
- Te Pou Tinana – Physical
- Te Pou Wairua – Spiritual
- Te Pou Ahurea – Culture

Once a referral is received from Te Pokapū, whānau are assessed by the onsite Service Provider to ensure they are allocated a unit that best suits their needs and particular circumstances using the Nga Pou-e-Rima cultural framework. This includes consideration or management of people whose behaviour may create unacceptable risk to other occupants. If an appropriate unit is unavailable, whānau will be referred back to Te Pokapū.

Unit allocation within the site also follows the Nga Pou-e-Rima cultural framework assessment model and all Service Provider staff involved in triaging potential CEH occupants are trained and are familiar with this methodology. In addition, the Service Provider aims to ensure that:

- i. Placements are primarily for families with children, young people / rangatahi, people with disabilities and the elderly;

In particular, adverse effects may relate to:
 - i. Site Management;
 - ii. The use of common / shared areas;
 - iii. Parking; and/or
 - iv. Waste Management.

Advice Notes:

Building Act

1. *This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.*
2. *Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.*

Waste Management

3. *Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).*

Right of Objection

4. *If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.*

Monitoring of Conditions

5. *Fulfilment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.*
6. *Please contact Council's Compliance & Regulatory Team (RMACompliance@rotorualc.nz) in relation to the completion and monitoring of the conditions of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.*

Augier Conditions

7. *Where an applicant gives a clear and unequivocal undertaking and, relying on that undertaking, the local authority grants consent subject to a condition in terms broad enough to embrace the undertaking, the applicant cannot say later that there is no power to require compliance with the undertaking. The consent holder cannot assert after consent being granted that the condition was unlawfully imposed. This is called an "Augier" condition.*
