

Tarawera Transfer Station Changes

Over the next four months, pump station works will alter the layout of the Tarawera Transfer Station. The transfer station will remain open to the public during this time with traffic flow arrangements changing as various phases of work take place.

- Weekdays: Traffic flow will be redirected based on the current phase of work.
- Weekends (late Friday to Monday morning): Traffic flow will revert to the front of the recycling shed.
- As work progresses, weekend traffic flow will be diverted to the rear of the recycling shed.

Thank you for your cooperation.
